

# Supported worldwide

CJR and Veem products are how supported in locations around the globe. Launched last year, the CJR Propulsion dealer and service support network has gone from strength-to-strength and recent months have seen the addition of several new centres – where either VEEM, CJR or products from either manufacturer can be serviced, repaired or replaced.

The global partnerships, established with some of the most professional service organisations in the industry, guarantees any work on existing equipment is completed to the standards set out by CJR and VEEM, regardless of where in

the world you are. The network also ensures any new or replacement props are fitted to the correct specification and optimised for efficiency and performance, in-line with design and engineering procedures.

“Our customers want to know their props are in safe hands and that they are being looked after by someone who knows us and how we work. It also means any repair work is not based on “an idea” of the propeller but real technical information, provided by us or VEEM.”

**Mark Russell**  
CJR Managing Director

### SLEIPNER MOTOR – SIDE POWER – NORWAY

Narve Karlsten, Sleipner Motor AS, Arne Svendsensgt, 6-8 Postboks 519, 1612 Fredrikstad
